We pay the fees for the Secretary of when we deliver your documents. Once we pick your documents up from the Secretary of State, we will scan or fax your documents, along with an Invoice, and then mail the originals.

The Secretary of State fees can be found at www.cacorporatefiling.com. We are not able to determine the fees for document retrieval because it is based on number of pages and we don't have that information until we pick your documents up from the Secretary of State.

The processing time for filings and document retrieval is set by the Secretary of State and we are unable to affect that timeline. We can, however, make you aware of the "working dates" posted by the Secretary of State on the day that you place your order. The advantage of having us handle your documents is that we are able to check for your documents daily. This assures you that your documents are available to you on more expedited bases than the Secretary of State's mail-back program.

Thank you for your interest in our service. We are ready to provide you with excellent service and become a part of your team.
